- Raising 2019 outlook

ROANOKE, Va.--(BUSINESS WIRE)--Nov. 5, 2019-- Luna Innovations Incorporated (NASDAQ: LUNA), a global leader in advanced optical technology, today announced its financial results for the three and nine months ended September 30, 2019.

"This was truly a quarter of noteworthy accomplishments, including continued margin expansion and reporting our eighth consecutive quarter of double-digit, year-over-year growth in revenues," said Scott Graeff, President and Chief Executive Officer of Luna. "Given the strength of our year-to-date financial results and the visibility we have into the end of this fiscal year, we are again raising our 2019 outlook. We expect total revenues to be between \$69 million to \$70 million, and adjusted EBITDA to be between \$8.2 million to \$8.6 million."

Graeff continued, "In addition, with Carilion's conversion of their preferred shares to common, and the associated termination of preferred dividends, we significantly improved and simplified our capital structure. We also initiated and completed a \$2 million stock buyback program. As a company, we will continue to focus on the execution of our strategic plan and initiatives that we believe will lead to substantial profitable growth."

Third-Quarter Fiscal 2019 Financial Summary

Financial results for the three months ended September 30, 2019 continue the strong momentum from the beginning of the fiscal year. These results include a full quarter of the businesses of both Micron Optics, Inc. ("MOI"), acquired in October 2018, and General Photonics Corporation ("GP"), acquired in March 2019. Revenue and expenses related to Luna's optoelectronics business, as well as the gain recognized on the sale of that business in July 2018, are classified as discontinued operations in Luna's results of operations for the three months ended September 30, 2018. Accordingly, net income for the third quarter of 2018 was significantly higher due to the inclusion of \$7.6 million of income from discontinued operations. The third-quarter fiscal 2019 will be the last quarter in which discontinued operations comparisons related to Luna's optoelectronic business and the gain related to the sale of that business will be relevant.

Highlights of the financial results for the three months ended September 30, 2019 are:

Products and licensing revenue for the three months ended September 30, 2019 increased compared to the prior year period, due to the inclusion of the incremental revenues associated with the acquired operations of MOI and GP, as well as increased revenues associated with Luna's communications test products and Luna's other legacy products. Technology development revenues increased for the three months ended September 30, 2019, compared to the prior-year period due to growth in various government research programs.

The increase in operating expenses was due primarily to an increase in expenses associated with the acquired operations of MOI and GP. Pre-tax income from continuing operations increased to \$1.6 million for the three months ended September 30, 2019, compared to \$0.7 million for the prior year fiscal quarter, driven primarily by revenue performance and prudent expense management.

Net income from continuing operations was \$1.2 million, or \$0.04 per fully diluted share, for the three months ended September 30, 2019, compared to \$1.3 million, or \$0.04, for the prior-year period. Net income attributable to common stockholders for the three months ended September 30, 2019, was \$1.1 million, or \$0.03 per fully diluted share, compared to net income attributable to common stockholders of \$8.8 million, or \$0.27 per fully diluted share, for the three months ended September 30, 2018. The decrease in net income attributable to common stockholders was driven by \$7.6 million, or \$0.23 per share, in income from discontinued operations recognized in the third quarter of 2018. Net income attributable to common stockholders for the three months ended September 30, 2019, also included \$0.7 million of non-cash expenses for share-based compensation and amortization of intangible assets associated with the acquisitions of MOI and GP.

Adjusted EBITDA was \$2.9 million for the three months ended September 30, 2019, compared to \$0.9 million for the three months ended September 30, 2018. The growth was driven by revenue growth from both Luna's legacy business and the MOI and GP acquisitions, and prudent expense management.

Nine Months Year-to-Date Fiscal 2019 Financial Summary

2019 Full-Year Outlook:

Luna also is raising its 2019 outlook:

- Total revenues in the range of \$69 million to \$70 million for full fiscal 2019, up from \$66 million to \$69 million; and
- Adjusted EBITDA in the range of \$8.2 million to \$8.6 million for full fiscal 2019, up from \$7.2 million to \$7.6 million.

Luna is not providing an outlook for net income, which is the most directly comparable generally accepted accounting principles ("GAAP") measure to Adjusted EBITDA, because changes in the items that Luna excludes from net income to calculate Adjusted EBITDA, such as share-based compensation, tax expense, and significant non-recurring charges, among other things, can be dependent on future events that are less capable of being controlled or reliably predicted by management and are not part of Luna's routine operating activities.

The outlook above does not include any future acquisitions, divestitures, or unanticipated events.

Non-GAAP Financial Measures

In evaluating the operating performance of its business, Luna's management considers Adjusted EBITDA, which excludes certain charges and credits that are required by GAAP. Adjusted EBITDA provides useful information to both management and investors by excluding the effect of certain non-cash expenses and items that Luna believes may not be indicative of its operating performance, because either they are unusual and Luna does not expect them to recur in the ordinary course of its business, or they are unrelated to the ongoing operation of the business in the ordinary course. Adjusted EBITDA should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for, or superior to, GAAP results. Adjusted EBITDA has been reconciled to the nearest GAAP measure in the table following the financial statements attached to this press release.

Conference Call Information

As previously announced, Luna will conduct an investor conference call at 5:00 pm (ET) today to discuss its financial results for the three and nine months ended September 30, 2019. The investor conference call will be available via live webcast on the Luna website at www.lunainc.com under the tab "Investor Relations." To participate by telephone, the domestic dial-in number is 844.578.9643 and the international dial-in number is 270.823.1522. The participant access code is 8784037. Investors are advised to dial in at least five minutes prior to the call to register. The webcast will be archived on the company's website under "Webcasts and Presentations" for 30 days following the conference call.
